OCLC WorldShare™

Shared infrastructure to manage and share resources across libraries and across communities.

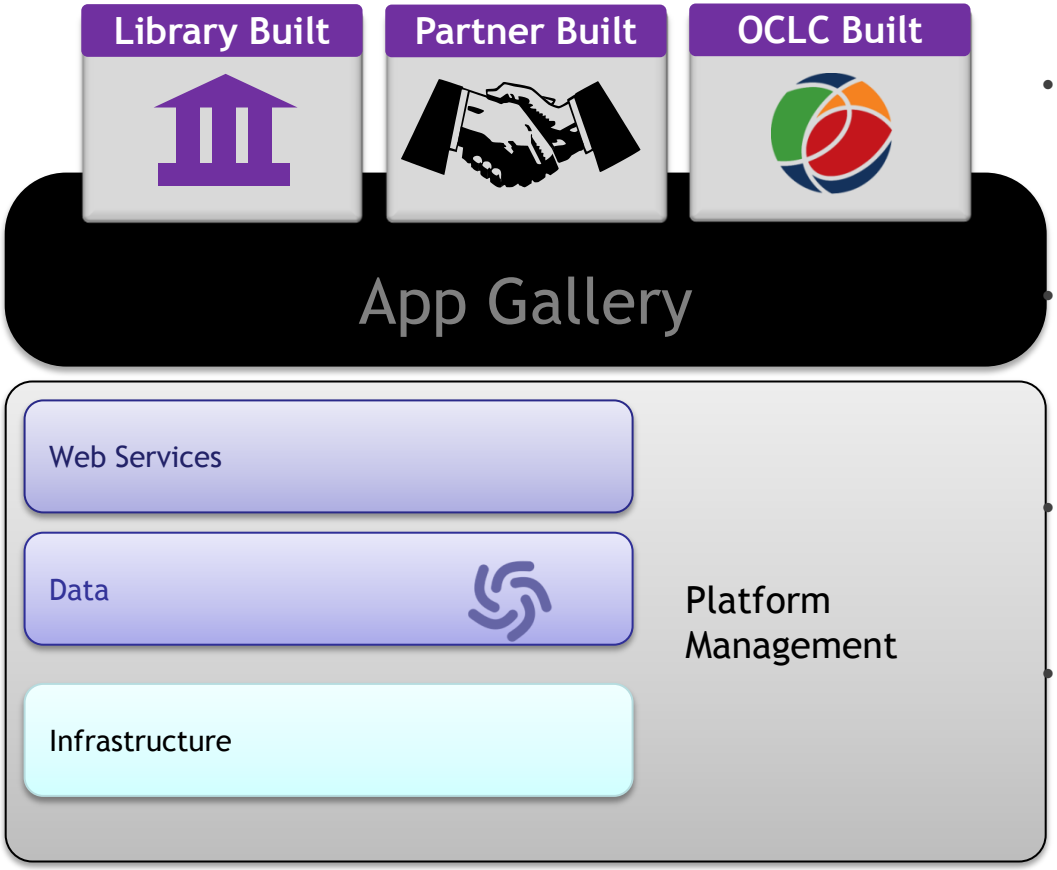
Shared data and services

Open

Option for collective innovation

OCLC's WorldShare strategy

OCLC WorldShare™ Platform



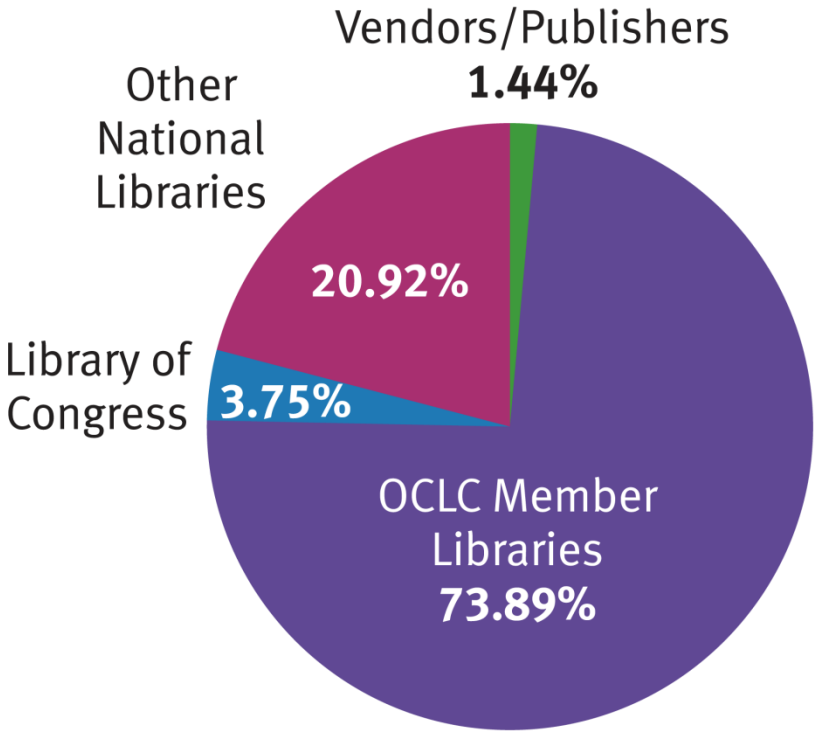
- **Applications:** Provide a single integrated set of management services for libraries to improve visibility and efficiency, including services from OCLC, partners and libraries
- **Web services**: Make library data available to libraries and partners to build and share new services and applications, creating new value for libraries and their users
- **Data:** Expand the range and types of library data represented and "connected" through WorldCat data hub
- **Infrastructure:** Enable libraries to benefit from the efficiencies and flexibility of cloud, mobile and social technologies through a single global infrastructure

Shared data and services

Shared data about the world's libraries.
Find and get it.

OCLC WorldCat®

- Nearly 300,000,000 records
- Over 2,000,000,000 library holdings
- Over 470 languages
- Community built and maintained by libraries and partners in 170 countries and territories



WorldCat: a global catalogue

Every conceivable physical and electronic format
Not just a monographic/book catalogue

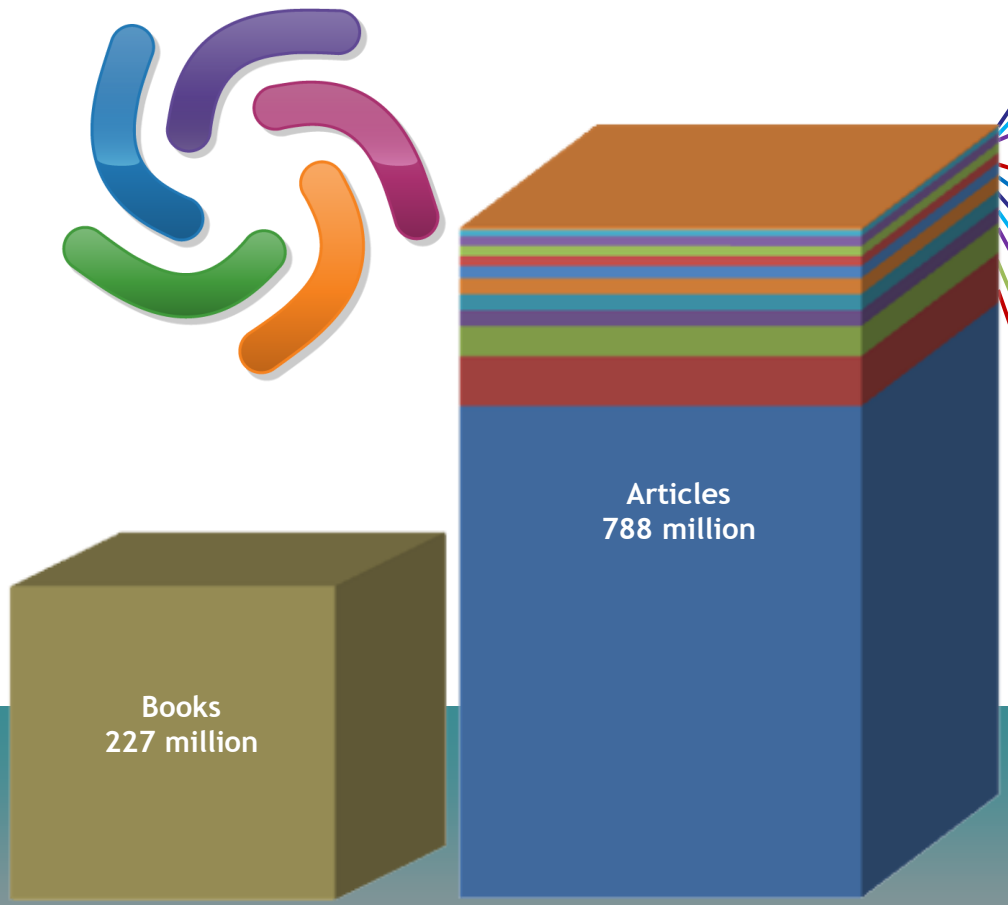
Popular, rare and one-of-a-kind resources
Catalogued works span thousands of years and nearly every form of human expression.

470+ languages from 112 countries and territories
Records are constructed in many languages: WorldCat cataloging supports Arabic, Bengali, Chinese, Cyrillic, Japanese, Korean, Latin, etc.

National catalogues increasingly represented
OCLC continues to put much more of the "world" in WorldCat by partnering with national libraries from many countries. Any library is encouraged to contribute their collections to WorldCat. Is every library obliged to ‘un-lock’ their collections.

Quality metadata
Records are maintained cooperatively by cataloguers and other information professionals; adhere to international standards; and are vetted by several OCLC and industry quality control programs.

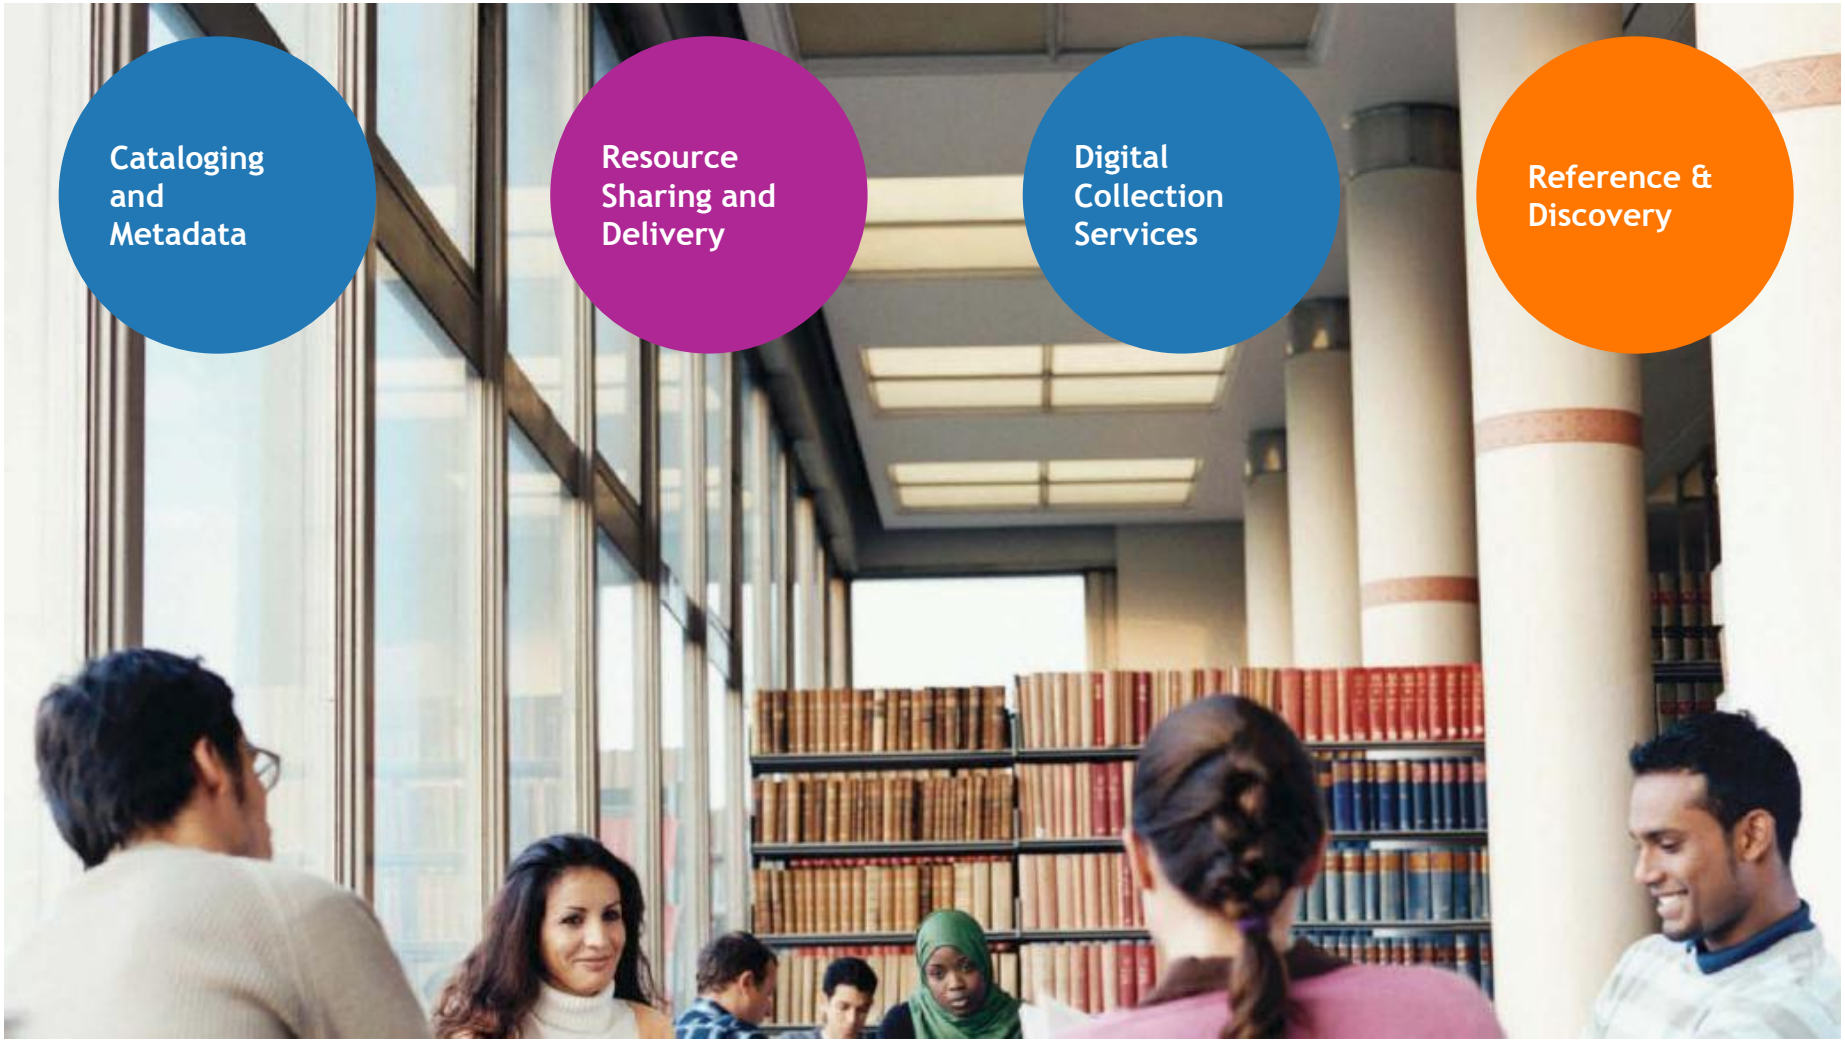
WorldCat central index content



Maps: 4 million
Scores: 6 million
Visual materials: 11 million
Serials: 11 million
Sound recordings: 12 million
Conf. proceedings: 13 million
eBooks: 14 million
Theses and dis.: 18 million
Institutional repository records: 26 million
Archival materials: 29 million
Digital materials: 36 million

As of 2 Apr 2013

A variety of interconnected services



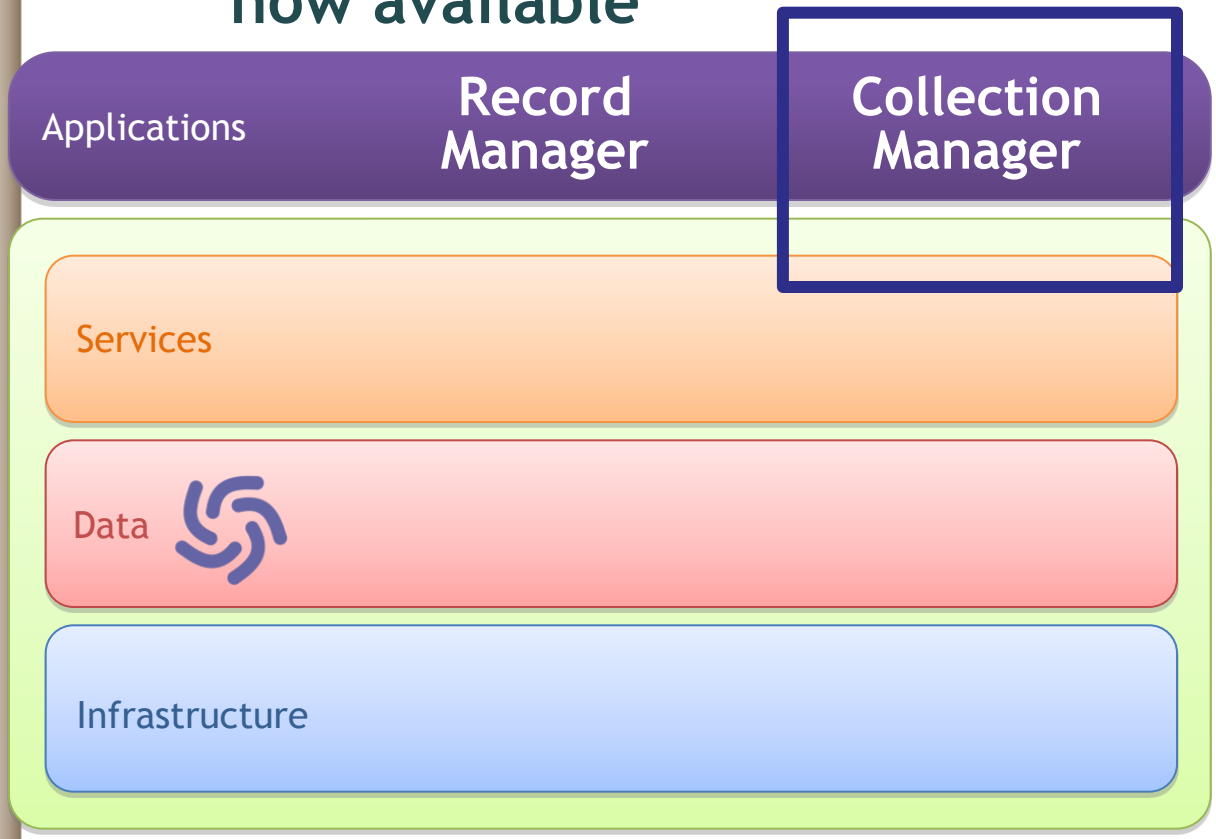
Cataloging & metadata

- **A range of services that include integrated online cataloguing and other metadata delivery services:**

• Connexion	create, edit and export MARC/Authority records
• Collection Builder	automatically delivers and updates WorldCat MARC records and maintains WorldCat holdings for all or subsets of your collection.
• License Manager	consolidates link resolution, subscriptions, access, licenses, and vendor and rights management.
• Batch Processing	offline option to add records/holdings
• Z39.50 client	option to use your LMS Z client

OCLC WorldShare Metadata Collection Manager

Collection Manager - now available



- Manage metadata on physical, electronic, and digital collections of records
- WorldCat holdings maintenance
- MARC record delivery with custom editing options to supply data to discovery interfaces
- Automatic update and delete notifications as collections and metadata change
- Detailed reports

eContent is only getting bigger

Resource Sharing & Delivery

Inter Library loans

- WorldCat Resource Sharing: an established network of more than 9,500 libraries who borrow and lend materials from “down the road” or “across the globe”.
- A single source for library materials around the world
- Decreases costs and saves time through integrated management of requests, loans and charges
- Realize increased use of your collections
- WorldCat Resource Sharing will fulfil more than 95 percent of your ILL requests
- Your library only receives requests for items that you can supply based on your local rules

OCLC WorldShare™ Interlibrary Loan

- New service will replace WorldCat Resource Sharing
- Included in existing OCLC Resource Sharing subscriptions
- The service will:
  - Add efficiencies and improve workflows
  - Support delivery of print and electronic materials
  - Promote member innovation with platform-driven APIs

New and improved features

- Display of lender costs - *speeds selection of appropriate lenders*
- Integrated buy-it options for staff - *options to buy alongside borrow*
- Variable aging of requests - *automatic entry of "enter my symbol twice" saves staff time*
- Display of item availability and shelf status + dynamic lender string based on item availability for WorldCat Local libraries - *select lenders based on actual availability of needed item*

Borrowing example

Digital Collection Services

- Digital Collection Management Software – CONTENTdm

- WorldCat® Digital Collection Gateway - a self-service tool for uploading the metadata of any digital collection to WorldCat and the global platform this provides.

- Digital Archive - a secure storage environment for you to easily manage and monitor the health of your master files and digital originals.

CONTENTdm manages all types of materials

- **Images -** photographs, posters, postcards, paintings, etc.
- **Historical documents -** journals, diaries, letters, etc.
- **Printed materials -** newspapers, yearbooks, reports, PDFs, etc.
- **EAD Finding Aids**
- **Audio/video -** oral histories, historic films, lectures, etc.

January, Thursday 1. 1885.

This is a very cold day. Thermometer stands at
25 below. I did not practice on the piano today.
Papa has been home nearly all day and we
have been playing games most of the time.
Two elders and two deacons called today.
I carried a cake down to the Christian Associ-
ation rooms this morning. Aunt Sarah stop

You don't know how happy I was to spot this picture. This is a photo of my grandmother. She was so proud of her days as a motorette and loved talking about it every chance she got. She died suddenly last August and we miss her very much. I love this picture of her, she has a great smile on her face. Thanks for posting it. by Jon Murphy

End User Services Discovery

OCLC

OCLC provides a suite of reference and discovery tools, some based solely on the unique strengths of WorldCat, others focus on “assisting remote users”

- WorldCat Local – a web Discovery Interface. Interacts with your ILS and Local ILL systems.
- WorldCat.Org – a Web destination with search and social networking features that provides free discovery of YOUR collections and those of 10,000-plus WorldCat libraries globally
- QuestionPoint – a virtual tool allowing you to interactive with users, via email, Chat, co-browsing, either as a single institution or as part of a cooperative solution

WorldCat.Org: designed for the Google Age

"…first thing I do, is, I go to Google… "
(Anonymous information seeker)

We would like to "present Macedonia to the world, present its cultural heritage…"
(Mile Bosheski, Director of the National Library of Macedonia, "Sv. Kliment Ohridski")

"The world does not know what we have in our holdings and our library…"
(Viktorija Kostoska, National Library of Macedonia, Sv. Kliment Ohridski)

WorldCat.Org:

- a platform to make valuable collections more visible to web users
- increases global awareness of this rich culture and heritage,
- directs users back to the library.

Added value of WorldCat.org

In contrast to the traditional view of WorldCat for cataloging, WorldCat.org includes:

- **Over 140 million additional article records**
- **Digital Items harvested from partners and the WorldCat Digital Collection Gateway**
- **Over 1.7 million reviews**
- **Cover art in brief results**
- **Partner API integration – e.g. Google API integration, EasyBib**
- **User Generated/Social Content – reviews, lists, tags**
- **Recommendations**
- **Over 90 collections via WorldCat.org**
- **And … linked data**

NUKAT database has recently become subject to an increasing number of massive robot searches.

Please, be aware that such actions violate rules on the use of NUKAT database, slow down its server performance and seriously hinder other users' access to the union catalog.

Any attempts at performing robot searches on NUKAT will result in the immediate blocking of appropriate IP adresses and ranges from accessing the union database.
